

Solas Intake Grates

Hook Up At All Times! The Solas aluminum intake grate is designed with an airfoil section which gives you efficiency, overall handling, and reliability. The airfoil section allows more water flow consistently into the pump to eliminate cavitation and improves hook up capability. Solas offers the two-foil IG-A and one-foil IG-B for early models. This year Solas introduced new models for the PWC Market. The GSX-IG-B, GTX-IG-B, and XP-IG-B are designed for the latest Sea-doo models, while the KH-IG-B is specially designed for the Kawasaki Ultra 150.

Solas High Performance Jet Pumps

Solas proudly presents a new product line, the Jet Pump series, to the personal watercraft world. This new line of products is based on modern hydrodynamics design and intensive field testing from the Solas PWC racing champions. And now the same high performance pumps are available not only to professional but the recreational PWC enthusiasts as well.
